The Performance Management Organization (PMO) score is a composite index of implementation quality. The PMO is built around 14 functions that effective schools have mastered. In each of the 14 areas, school personnel responses and field researcher observations were rated and compiled. Final scores were calculated as follows:

As an indicator of overall student achievement, we provide information regarding CRM students’ performance on state standardized tests in reading and math. These data are publicly available from the Louisiana Department of Education. For each year of school operation, we report the percentage of students attending Carver Collegiate Academy achieving proficiency or above on Louisiana’s state tests in both reading and math.

Evaluation of Scaling the New Orleans Charter Restart Model: Student Impact
Carver Collegiate
Cohort 2, New Orleans, LA

Enrollment & Demographic Profile

Carver Collegiate’s enrollment demographics were fairly stable through the years of the study, with a slight decrease in the percentage of Black students in 2015-16. The percentage of students eligible for free/reduced lunch decreased in 2015-16. Carver Collegiate experienced slight increases in the percentage of English-Language Learners and a slight decrease in Special Education students over the course of years in 2015-16. Demographic data are not available for the first few years during which Carver Collegiate was included in the CRM evaluation.

PMO Score

Implementation Summary

Carver Collegiate looked to its CMO and Flagship school in early years as models, but eventually came to value developing its own distinct identity, culture, and student population. Carver Collegiate demonstrated a commitment to critical reflection and continuous improvement through its operations. Carver Collegiate was the first school among the group to implement the student-centered model, a process that began during its second year of operation. Rather than isolate itself in opposition to student and community demands, Carver Collegiate operated as an engine for dialogue and alternative models that could be tested, measured, and adjusted based on performance.

School’s Current Status

Carver Collegiate and Carver Prep have merged into a single high school, GW Carver High School. The new combined high school is still operated by Collegiate Academies. The Louisiana Department of Education rates the combined high school a “D” for the 2016-17 school year.
