Tubman’s performance dropped in 2016-17 but they remain one of the highest performing full school turnarounds in New Orleans. Crescent City Schools continues to operate Tubman, serving grades K through 8.

**School’s Current Status**

Implementation Summary

Tubman stands out in this evaluation as one of very few full school turnarounds that created positive learning impact for students. Tubman revised its pedagogical and operational approaches throughout the study, but benefited from an extremely close and productive relationship with its CMO throughout its evolution. Tubman considered itself as much a neighborhood school as a school of choice, due to their geographic location and the families they serve. Tubman committed to remaining a viable choice for all New Orleans students, but to maintaining a sense of neighborhood as well. Tubman expressed at the end of the study period that Tubman (and other CCS network schools) might never achieve an “A” grade in the state’s rating system, but that Tubman would aim to become a “B” school. This downgrading of expectations, especially in light of Tubman’s unusual success as a full school turnaround, represents a critical threat to the viability of the CRM.

**PMO Score**

**School Proficiency Level**

As an indicator of overall student achievement, we present information regarding CRM students’ performance on state standardized tests in reading and math. These data are publicly available from the Louisiana Department of Education. The years presented in table below are the percent of students achieving proficient or better on state standardized tests.
